

## PRODUCT DATA SHEET

---

### STONE TYPE

WELSH BLUE PENNANT SANDSTONE

---

### PRODUCT

SEMI-COURSED CROPPED WALLING (PARALLELS)

---

### DESCRIPTION

Appearance:

Fine grained pennant sandstone

Predominantly blue grey in colour with some brown tones.

Finish:

Cropped - Semi-coursed

Geological Type:

From the Rhondda Beds of the Pennant series of Carboniferous Sandstones

Quarry of Origin:

Gwrhyd Quarry

---

### APPLICATION

Commercial & Self build projects, garden walls, retaining walls, etc. Also described as small corners, they can be used as corner stones for pillars and reveals and mixed with Random. When installed, this product is very neat; it gives clear lines in a very uniform manner. Semi-coursed are straight parallel top and bottom, in a mix of blue and brown colours. Approx the same size as Random stone, but they tend to be squarer. All cropped walling can be laid with 100% blue/grey face

---

## SUPPLY

Pack Weight	Approximately 900 Kgs.
Packaging	Double bagged - Jumbo bags

## PHYSICAL PROPERTIES

Work Dimensions	Random lengths and random heights, parallel top and bottom.
Bed width	100mm, 100 – 125mm other bed widths are available, please contact the office for details.
Coverage	100mm -125mm, 1 bag will build approximately 3 – 3.5m <sup>2</sup> 100mm, 1 bag will build approximately 3.3– 4.0m <sup>2</sup>
Compressive strength	122 MPa min
Water Absorption	0.74%

---

## FUTHER INFORMATION

### WEATHERING

It should be appreciated that with all products weathering and site conditions can cause shade variation to appear on individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.

NOTE: As with all natural stone products the product is subject to colour variation.

### GENERAL

Semi-coursed walling is supplied in random lengths and heights. This product can also be supplied guillotined at one end.(see Square Ends)
