
PRODUCT DATA SHEET

STONE TYPE

WELSH BLUE PENNANT SANDSTONE

PRODUCT

RANDOM CROPPED WALLING

DESCRIPTION

Appearance:

Fine grained pennant sandstone

Predominantly blue grey in colour with some brown tones.

Finish:

Cropped - Semi-coursed

Geological Type:

From the Rhondda Beds of the Pennant series of Carboniferous Sandstones

Quarry of Origin:

Gwrhyd Quarry

APPLICATION

Heritage projects both commercial and domestic. Garden walls, retaining walls, self build projects etc. The most popular of all walling products, Random cropped gives a more natural shaped appearance than the semi coursed; Both Random and Semi coursed can be mixed together for a more regular laid pattern, as they are the same colour mix. All cropped walling can be laid with 100% blue/grey face.

Bed width	100mm, 100 – 125mm other bed widths are available, please contact the office for details.
Coverage	100mm -125mm, 1 bag will build approximately 3 – 3.5m ² 100mm, 1 bag will build approximately 3.3– 4.0m ²
Compressive strength	122 MPa min
Water Absorption	0.74%

FUTHER INFORMATION

WEATHERING

It should be appreciated that with all products weathering and site conditions can cause shade variation to appear on individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.

NOTE: As with all natural stone products the product is subject to colour variation.

GENERAL

Random walling is supplied in random lengths and heights. This product needs to be laid by an experienced craftsman.
