

PRODUCT DATA SHEET

STONE TYPE WELSH BLUE PENNANT SANDSTONE

PRODUCT CROPPED JUMPERS

DESCRIPTION

Appearance: Fine grained pennant sandstone
Predominantly blue grey in colour with some brown tones.

Finish: Cropped - Jumpers

Geological Type: From the Rhondda Beds of the Pennant series of Carboniferous Sandstones

Quarry of Origin: Gwrhyd Quarry

N.B. Jumpers are the larger squarer stones

APPLICATION

Can be used to add character to a wall and is usually mixed with Random and Semi coursed cropped walling, for jump courses, to break up coursed pattern. These stones can be further dressed for quoins or square stones for reveals around windows , door frames and also for corners of buildings and pillars. The mix of blue and brown/rust colours blend well with cropped stone..

Coverage	100mm -125mm, 1 bag will contain approximately 35 – 45 stones
	Compressive strength 122 MPa min
Water Absorption	0.74%

FUTHER INFORMATION

WEATHERING

It should be appreciated that with all products weathering and site conditions can cause shade variation to appear on individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.

NOTE: As with all natural stone products the product is subject to colour variation.

GENERAL

Jumpers are supplied in random lengths and heights. This product is normally larger course heights of 200 < 300mm.
